OUR WORK SPEAKS FOR ITSELF

Toledo's Trusted Fence Professionals

Why Toledo Homeowners Choose Ghareeb Fencing

INSTALLER-OWNED & OPERATED

Our owner has installed hundreds of fences — reading slopes and tight corners before they become problems.

TRAINED, IN-HOUSE CREW

Trained in-house, the same faces start to finish — never day laborers or rotating strangers.

MATCHED GATES

Gates are built from the same rails, X-braced so they stay square.

NORTHERN WHITE CEDAR

All our cedar split rail is Northern White Cedar from Michigan mills. Pressure-treated is offered too.

TRANSPARENT, DETAILED QUOTES

Price, exact materials, and scope in writing. What we write is what you pay — no pressure, ever.

A WARRANTY THAT HOLDS UP

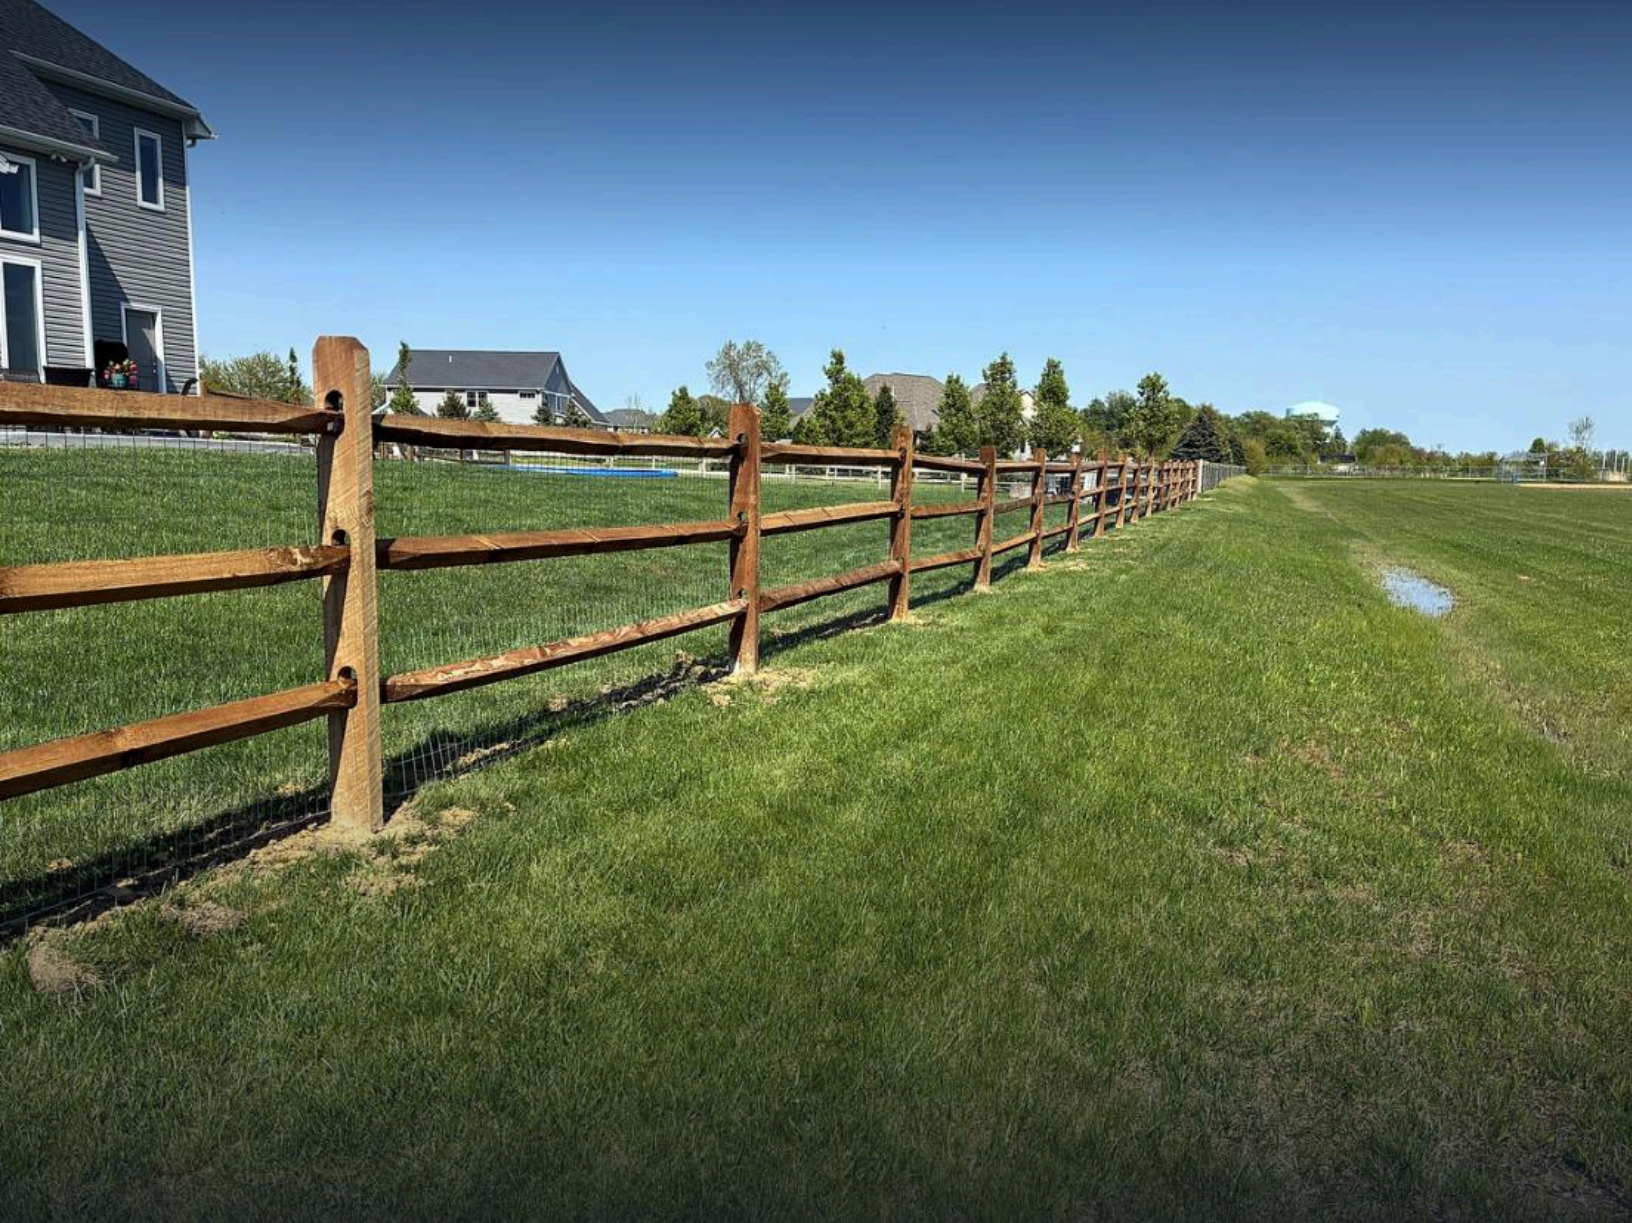

Three years on workmanship plus manufacturer material warranties. Not right? We make it right.

A NOTE FROM THE OWNER

When you hire us, you get the person whose name is on the company. I still walk every estimate, read every yard, and stand behind every post we set. We're a small Toledo family business — your fence is how our name gets around, and we build it that way. Thank you for letting us earn it.

Nicholas — Owner & Installer

01

SPLIT RAIL

Split Rail

Northern White Cedar and pressure-treated split rail, with or without pet wire.

Split Rail — Two Ways to Build It

Pressure-treated (darker) · Northern White Cedar (lighter)

SPLIT RAIL — TWO WAYS TO BUILD IT

GFS-SR-CHOICE

YOUR CHOICE OF TWO BUILDS

PRESSURE-TREATED — THE DARKER ONE

Color	Darker brown
Posts	Rectangular, sawn
Rails	Diamond-cut
Wood	Pressure-treated lumber

NORTHERN WHITE CEDAR — THE LIGHTER ONE

Color	Lighter, natural
Posts	Round, peeled
Rails	Half-round
Wood	Sourced from Michigan mills

THE SAME ON BOTH

10'-0"	12 · 30 · 48"	36" or 48"	No nails
SECTION, POST TO POST	RAIL CENTERS, 3-RAIL	WIRE ROLL, IF YOU WANT IT	RAILS LOCK IN THE POST

Both builds use mortised posts: the rail ends slide through the post. Either one can carry 2" × 4" welded wire for pets.

Not sure which you are looking at? Dark with rectangular posts is pressure-treated. Light with round posts is Northern White Cedar.

Full drawings and dimensions for both are on the split rail build-spec page.

Pick the look. Both use mortised posts, with no nails holding the rails in.

Split Rail — Pet Wire & Gates

Welded Wire · Walk Gates · Double Drive Gates

SPLIT RAIL

GFS-SR-PET

PET WIRE & GATES · SHOWN IN NORTHERN WHITE CEDAR

Northern White Cedar: walk gate and corner, with wire
Gate built from the same rails, X-braced so it stays square

Cedar double drive gate · long run
Two leaves for a wide opening

X-braced gate
Diagonal brace keeps the leaf from sagging

Wire to the ground
Bottom board under the lowest rail

Wire on every section
Runs behind each rail, post to post

Wire goes on the yard side: from the street it still looks like plain split rail, and a dog pushing on it pushes it into the rails.

Ask for a bottom board if your dog digs. It closes the gap between the wire and the ground.

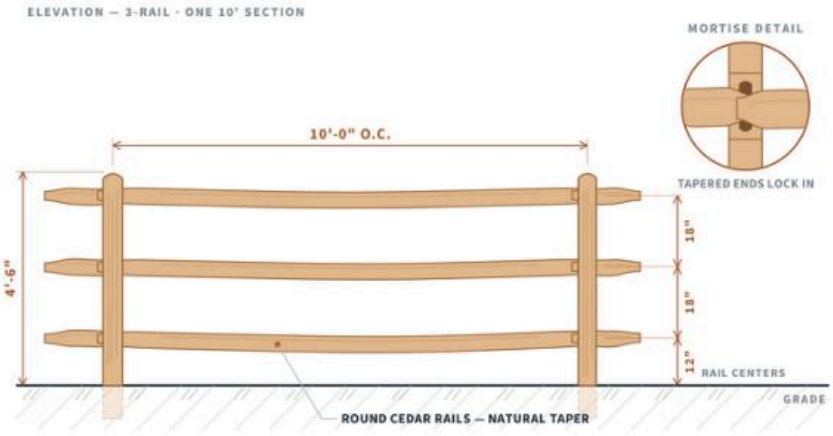

Keeps the dog in. Still looks like split rail from the street.

Split Rail — Build Specs

Cedar Split Rail · PT with Pet Wire

CEDAR SPLIT RAIL — ROUND POST & RAIL

GFS-SR-CED

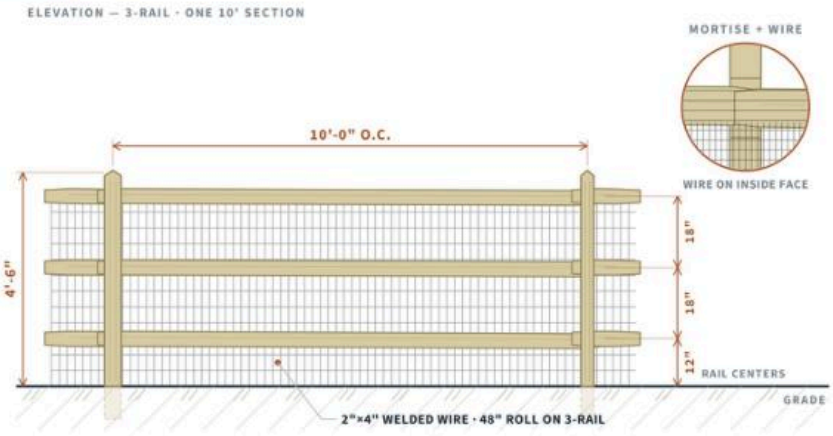

SPECIFICATIONS

SPECIES	Northern White Cedar
RAILS	2-rail (3 ft) or 3-rail (4 ft)
RAIL CENTERS	12" · 30" · 48" (3-rail)
POSTS	Round, mortised · 4½" line, 5" ends
SECTIONS	10'-0" O.C.
JOINERY	Tapered rails, no nails or brackets

Round cedar posts and rails. The tapered rail ends lock into the post, so there's no hardware to rust.

PT SPLIT RAIL — WITH PET WIRE OPTION

GFS-SR-PT

SPECIFICATIONS

WOOD	Pressure-treated, sawn
RAILS	2-rail (3 ft) or 3-rail (4 ft)
POSTS	Sawn, mortised · line posts ~3¼" × 6"
SECTIONS	10'-0" O.C.
WIRE	2"×4" welded, 14 ga, 100-ft rolls
WIRE FINISH	Galvanized, black or green coated

The wire goes on the inside face. From the street it still looks like plain split rail; from the yard it holds the dog.

Two kinds, both mortised. Round cedar or sawn PT on 10-ft sections, with the 2"×4" wire option spelled out before we set a post.

Our 3-Checkpoint Quality System

We don't move forward until every detail is verified — and you can watch it happen in your portal

1

PRE-INSTALL

- ✓ Property lines verified
- ✓ 811 utility locates marked
- ✓ Materials inspected on arrival
- ✓ Site documented with photos

IN YOUR PORTAL

- Permits pulled
- Materials confirmed
- 811 locates logged
- Crew assigned

2

DURING INSTALL

- ✓ Post depth verified
- ✓ Every run checked for level
- ✓ Gate swing tested
- ✓ Progress photos uploaded

IN YOUR PORTAL

- Layout confirmed
- Gates verified
- Property lines held
- Your sign-off

3

FINAL WALKTHROUGH

- ✓ Complete inspection with you
- ✓ Hardware checked and adjusted
- ✓ Gate alignment dialed in
- ✓ Site cleaned, debris hauled

IN YOUR PORTAL

- Full inspection
- Hardware tested
- Clean-up done
- Final sign-off

Photo documentation · issues caught early · your approval required. That's the promise — nothing moves forward until you're satisfied.

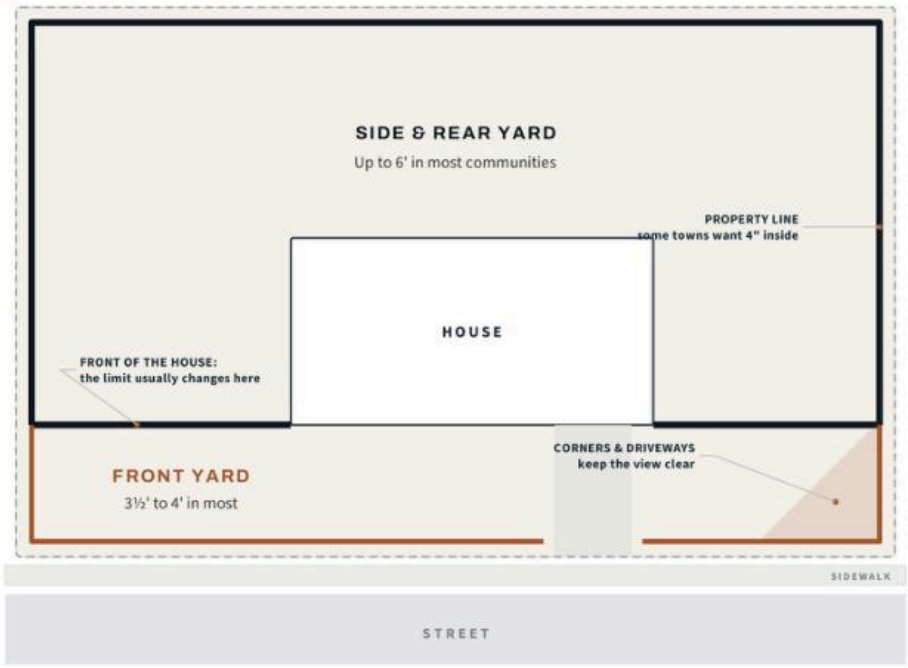

Local Fence Rules

Height limits · permits · what towns ask for

FENCE RULES AT A GLANCE

GFS-RULES-1

WHERE THE HEIGHT LIMITS USUALLY CHANGE · PLAN VIEW, TYPICAL LOT

READING THE DRAWING

Side and rear fence
Usually up to 6'. Privacy styles go here.

Front yard fence
Usually 3½' to 4'. Some towns ask for an open style.

Property line
Most towns let you build on your side of it.

RULES NEARLY EVERY TOWN SHARES

Good side out
Posts and rails face your yard, the finished face faces the neighbor.

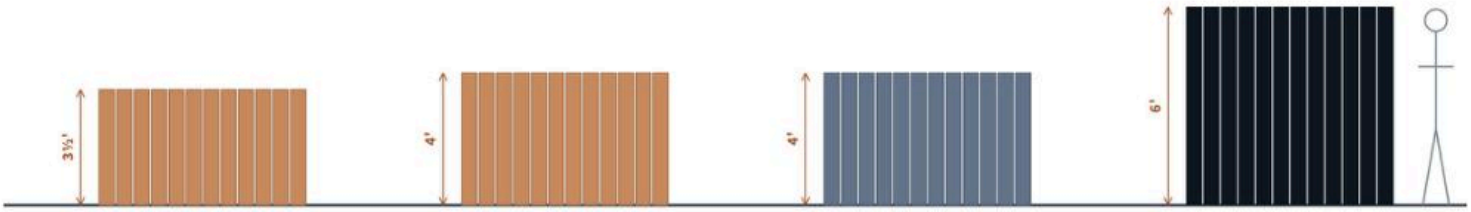

Corner lots
Both street sides can count as front yards.

Pools
A barrier of about 4' with a self-closing, self-latching gate.

Utilities
811 locate before any post goes in. We call it in.

HOAs
Deed and HOA rules can be stricter than the town's.

HEIGHTS SIDE BY SIDE · ELEVATION

FRONT YARD
Toledo, Sylvania, Rossford, Bedford Twp

FRONT YARD
Perrysburg, Oregon, Springfield Twp

POOL BARRIER
Typical minimum, with a latching gate

SIDE & REAR
Standard privacy height

Typical limits only. The next two pages list what each community publishes.

Most towns follow the same pattern. Low in the front yard, up to six feet at the side and rear.

What Our Customers Say

Real reviews from Google, Facebook & BBB — reproduced word for word

★★★★★ **Roy Gene Palmer III**

Excellent Work and Great Customer Service

Nick did an outstanding job installing our traditional cedar picket fence. From the start, he was incredibly patient in working through the details of our project and offered several creative solutions when we encountered challenges with our property layout.

What impressed me most was how he worked within our budget constraints to find the best possible option without compromising on quality. The finished fence looks fantastic - the craftsmanship is top-notch and you can tell Nick takes pride in his work.

His communication throughout the project was excellent, and he was always willing to explain his recommendations and answer our questions. I'd definitely recommend Nick to anyone looking for a reliable fence contractor who delivers quality work at a fair price.

★★★★★ **Josh Smith**

Hired Nick and Ghareeb Fencing solutions. We opted for a cedar privacy fence. Nick knocked it out of the park. Price was very competitive and the job was completed on budget and on schedule. They left the yard in clean state and were happy to talk to the neighbors about what to expect with the install. 10/10 would recommend again

The fence has been up for about 6 months through winter and looks as good as when he installed it.

★★★★★ **Dashawn Nickson**

I just got my fence done today June 6, 2025 and let me say this is a five star Fencing service complete my entire yard within two days always on schedule always answer calls reasonable prices. The workers are very nice and they work extremely hard nonstop. I definitely recommend

---

★★★★★ **Jenny Wilhelm Pfeiffer**

Nicholas was amazing to work with! Nicholas was very knowledgeable and patient with us with our decision making. He did not push vinyl on us knowing that wasn't what we wanted, unlike the other companies that quoted us. Our fencing was built from scratch, no pre-made fencing here! We cannot say enough good things about this business and the gentleman that he had working with him on our project. All of his employees were very kind and respectful. 100% a customer for life and absolutely recommend if you are looking for new fencing! Oh and he beat his competitors by over $1000.00!!!! Thank you so much for our amazing fence!

★★★★★ **Theresa C.**

Had around 230 linear feet of white vinyl fence installed 6/25/25. They finished the job the next day. Nicholas and his team were wonderful. From beginning to end. From the communication to the product and the install. If you need a fence you don't have to look any further. I highly recommend.

★★★★★ **Jenna Spetz**

We have nothing to say but amazing things about Ghareeb Fencing! We were so undecided about what we needed/wanted for our awkward lot(s) and Nick was SUPER patient. He talked us through each option and listened to my endless rants. We gathered several quotes and went with Ghareeb for the trust value. Their team provided outstanding communication and made the process seamless. Highly recommend!

★★★★★ **Marissa Barnes**

Amazing to work with! gave a great quote & we're able to get our fence up quickly. even thought of our dogs making sure they would be able to come out if needed while he worked. cannot recommend them enough!

Frequently Asked Questions

Straight answers up front — and a real person at (419) 214-2107 for the rest

Q. How long does installation take?

Most residential fences go up in 1–3 days. We confirm your install dates before we schedule, and the crew cleans up daily.

Q. Do I need a permit?

Most local zoning requires one. We pull and handle permits for you — it's built into every quote.

Q. Do you offer financing?

Yes — financing is available for qualifying customers. Ask us for current terms and rates.

Q. What's the warranty?

Three years on workmanship from us, in writing.

Q. Do I need to be home during the install?

No — but we recommend being there for the first and final walkthroughs so you and the crew stay on the same page.

Q. What areas do you serve?

Northwest Ohio & Southeast Michigan — Toledo, Perrysburg, Maumee, Sylvania, Monroe, Temperance, and nearby.

SIMPLE 4-STEP PROCESS

Getting Started Is Easy

From the first call to the final walkthrough — here's exactly what happens

1

FREE CONSULTATION

Schedule your free on-site estimate. We walk the yard together, measure, and answer everything before you commit to anything.

2

CUSTOM PROPOSAL

Usually within a day or two, your detailed proposal lands in the client portal — exact materials, line-item pricing, and a timeline.

3

EASY APPROVAL

Review and sign digitally. Make your deposit by card, check, cash, ACH, or Venmo — and we pull the permits.

4

EXPERT INSTALLATION

Our crew installs with precision, cleans up daily, and walks you through the finished project before we call it done.
